APPENDIX E: SAMPLE WASTE REDUCING MENUS

SAMPLE WASTE REDUCING MENU INTRODUCTORY TEXT

In the United States alone, we waste approximately 63 million tons of food. About 40% of that comes from consumer-facing businesses, like hotels. This means we're not only wasting food - we're also wasting resources, water, and energy and simultaneously, emitting more potent greenhouse gases that harm the environment.

[HOTEL X] is doing its part by developing a waste reducing menu that uses all edible parts of fruits and vegetables and uses other ingredients that are easily repurposed or donated at the end of an event.

This menu will be prepared with thoughtful consideration for your event attendees’ experience and with an eye towards eliminating unnecessary food waste. However, menu creation only addresses one aspect of food waste. [HOTEL X] encourages you to discuss with our event staff other strategies we can all employ to reduce food waste and improve event sustainability.

Note: The ranking (1 - 5) indicates yield efficiency for all produce items - higher ranked items create less organic waste in the kitchen.

WASTE REDUCING BRUNCH BUFFET MENU

**Breakfast Sandwich Bar:**
- Brioche bread
- Multi-Grain Bread
- Tomatoes (5)
