

WE ARE ALL GUESTS HERE.

Travel opens our eyes to the wonders of this amazing planet. Ironically, food that's wasted while traveling is a huge problem for the health of the whole ecosystem.

The shocking truth is 1/3 of all food goes to waste, putting a major strain on the earth's resources, from wildlife habitat to farmland, fuel, labor, clean air, water, and much more.

That's why we're changing the way we buy, cook and dispose of the food we use. We've made a commitment to reduce waste every step of the way, and you can help by taking only as much as you can eat. Let's work together to become better guests of this beautiful planet we all call home, one meal at a time.
